INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1991, ch. 127, pars. 1001 et seq., as amended).

The Agency shall ensure that all stages of the Procedure are readily accessible to and usable by individuals with disabilities.

Section 850.20 Quota

- a) Harvest quotas will be reviewed annually and will be established by the Department for each license fishing year taking into consideration the condition and supply of Lake Michigan fish stocks.
- b) For each license year beginning April 1st and ending March 31st, an annual total harvest quota of 350,000 pounds will be permitted. This quota shall be composed of bleater-chub (dressed weight) and not more than 275,000 pounds of yellow perch (round weight) annual total harvest quota of 343,000 pounds (round weight) of yellow perch

and 227,000 pounds (dressed weight) of bloater chubs will be permitted. ~~These~~ These annual total harvest quotas shall be divided equally among each licensee at the beginning of each license year. Upon reaching their share of the annual harvest quota for each species, each commercial license holder shall terminate fishing for that species for the remainder of the current license year. It shall be unlawful to possess other species except smelt and alewife incidentally caught in bloater chub and yellow perch gill nets, fished in compliance with this Part and the Illinois Fish Code. All other species must be removed immediately from the gill nets as they are brought on board the vessel and returned to the water at once in the same condition as taken.

Section 850.40 Limited Entry

a) ~~A maximum of 5 active licensed commercial fishing crews.~~ The Department shall issue 5 commercial licenses for taking yellow perch and bloater chub. ~~(using only~~ Each licensee may fish only with the fishing vessel designated on ~~their~~ each license) will be permitted to fish commercially in the Illinois waters of Lake Michigan. Five licenses shall be issued for the fishing year that began April 1, 1992, and the Department shall issue licenses from them to time so that 5 valid licenses are always outstanding at any one time.

b) Allocation of commercial fishing licenses was determined by a public drawing conducted June 27, 1975. The ranking order in this drawing has been used for expanding numbers of fishing licenses subsequently. ~~Should one or more of the current licensees wish to no longer commercially fish the Illinois waters of Lake Michigan, or is legally determined to be incompetent, the next eligible candidate(s) will be given the opportunity to obtain a Lake Michigan Commercial Fishing License. This ranking order will continue to be used until the list of eligible candidates has been exhausted. In such an event where no more candidates are available from the original list, a public drawing will be advertised to accept new candidates for additional licenses and to establish a ranking order for these new candidates. Should an eligible candidate whose name is reached on the list for license elect not to receive a license or in the event~~

~~a licensee's license is revoked for cause, then that eligible applicant or licensee shall be deleted from the eligible list then in effect. Each commercial fishing license for the 1992 fishing year and thereafter shall be issued as follows:~~

2) First, to any individual or corporation as described in Section 850.50 who was licensed through a harvest contract pursuant to the public lottery drawing conducted by the Director on June 27, 1975, but such individual or corporation did not hold a valid commercial license for whatever reason on April 1, 1992; provided, that the contractor shall have served any stated period of any license suspension or revocation established by an order of the Director. Among those individuals or corporations that meet the criteria under this item, priority shall be given to the individual or corporation that has been without a valid commercial license for the longest period of time. (Ill. Rev. Stat. 1991, ch. 56, par. 15-32).

3) Second, to any other individual or corporation entrant who had his specific name drawn in the public lottery drawing conduct by the Director on June 27, 1975 but was not licensed as a harvest contractor at that time or thereafter.

4) Third, if there are insufficient license applicants available at the beginning of any fishing year who meet the requirements for licensure under this Section for the Director to issue 5 licenses, the Director shall order and conduct a new public lottery drawing before the commencement of the fishing year and shall draw his applicant list from a roster of qualified operators. Should an eligible candidate whose name is reached on the list for license elect not to receive a license or in the event a licensee's license is revoked for cause, then that eligible applicant or licensee shall be deleted from the eligible list then in effect.

NOTICE OF PROPOSED AMENDMENTS

- 1) Heading of the Part: Hospital Services

- 2) Code Citation: 89 Ill. Adm. Code 148

- 3) Section Number: Proposed Action:

148.82

New Section

- 4) Statutory Authority: Section 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1991, ch. 23, par. 12-13)

- 5) Complete Description of the Subjects and Issues Involved:

A new Section 148.82 is being proposed to provide an opportunity for public comment on the Department's rules concerning payment for transplant services. Questions have been raised concerning the adequacy of the opportunity for public comment during the adoption of the current provisions regarding payment for transplant services which are located in Section 148.80.

The amendments to Section 148.80 in question were adopted on an emergency basis effective November 1, 1991. The notice of emergency amendments was published in the Illinois Register on November 8, 1992, at 15 Ill. Reg. 16166. In the same issue of the Illinois Register a notice of proposed amendments was published at 15 Ill. Reg. 15928. Following public comment and other required rulemaking procedures, the proposed amendments were adopted effective March 27, 1992. The notice of adopted amendments was published in the Illinois Register on April 17, 1992, at 16 Ill. Reg. 6255). While the Department believes that the adoption of these provisions was proper, these provisions are being repropoed at this time in order to provide another opportunity for public comment and resolve any possible questions about the adoption of these rules.

The Department's methods for providing reimbursement for hospital services underwent significant changes during the first half of Fiscal Year 1992. Prior to September 1, 1991, hospital rates for specific services and days of care were negotiated under the ICARE Program. The Department then implemented three new methods for hospital inpatient reimbursement, including the DRG (Diagnosis Related Group) system; the ARS (Alternate Rate System) system which is a cost-based per diem system; and a non cost-based per diem system. Substantive changes were required in Section 148.80, which pertains to organ transplant services, to reflect criteria necessary for the new reimbursement methods for hospital services.

Organ transplant services under the ICARE Program were paid for through a negotiated rate on a case by case basis. Organ transplant services provided by those hospitals not under the ICARE Program were reimbursed at

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

60 percent of charges on a case by case basis. The Department made an individual determination for each recipient regarding the appropriateness of the transplant. These services are now reimbursed through a combination methodology. Substantive changes were made in Section 148.80, which pertains to organ transplant services, to reflect the criteria which are now necessary for the calculation of rates.

The proposed provisions in Section 148.82 specify the following:

- transplant services include bone marrow, heart, liver, pancreas/pancreas-kidney transplantation (excluding bone marrow searches), medically necessary work-up and evaluation prior to transplantation, and other types of transplant procedures when a hospital has proper certification;
- a hospital must be certified by the Department as a transplant center for Medicaid eligible patients prior to receiving payment from the Department for transplant services;
- a certification process to be followed by a hospital seeking certification as a transplant center;
- certification criteria which a hospital which must meet and document;
- an annual recertification process to be followed by all transplant centers;
- the notification process (to the Department) which must be adhered to prior to any transplant;
- reimbursement for transplantation services, which is an all-inclusive rate for the admission and is limited to a specific percentage of total charges for a specific number of days;
- the days of services which will be covered for any transplantation service; and
- reporting requirements to which certified transplant centers must adhere.

The certification criteria which have been added to Section 148.82 require that a certified transplant center can demonstrate that an ongoing and successful transplant operation has been in effect for a number of years, that a minimum number of procedures has been undertaken annually, and that survival rates have been met. Survival rates, as well as the other numerical criteria, are specified in the rule according to the type of transplant service being considered.

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

The most recent changes in Section 148.82 relate to pancreas and kidney/pancreas transplant services. Prior to these changes, the Department covered only transplantation services for bone marrow, heart and liver transplants. Criteria have been developed which must be met by a hospital in order to be certified as a center for pancreas and kidney/pancreas transplant services. These criteria were developed in response to the need of a public assistance recipient for a pancreas transplant, and with the assistance of the State Medical Advisory Committee. The Department will cover the costs of pancreas and kidney/pancreas transplants in a hospital which meets the Department's requirements for certification, annual certification renewal, and the annual survival rates specified for pancreas and kidney/pancreas procedures.

It should be noted that under Section 148.82(d)(1)(A), only transplant centers located within Illinois or in St. Louis, Missouri, are eligible for certification. This limitation is imposed as a quality control mechanism, and in the interests of the Department to ensure the greatest level of cost effectiveness.

The rule revisions pertaining to transplant services are not expected to increase the Department's aggregate annual expenditures, since organ transplant services were covered prior to implementation of these changes. The budgetary effect resulting from the changes pertaining to pancreas transplants is expected to be minimal since only one hospital currently qualifies for pancreas transplant certification.

- 5) Complete Description of the Subjects and Issues Involved: Several proposed amendments, including three rules proposed for repeal, are required to revise the Department's capital reimbursement system for long term care facilities. This capital reimbursement system provides for rate calculation simplicity as well as fair and consistent calculation factors. The system offers enhanced rate recognition for increases in property values that are due to inflation or improvements to a building. The return on investment is paid on a blended value which combines the inflated construction cost for the specific nursing home building, with a standard replacement cost factor. A factor for equipment, rent, vehicle and working capital and a property tax factor is added to complete the capital rate. The aggregate annual budget impact is expected to be approximately \$30 million.

- 6) Will these proposed amendments replace emergency amendments currently in effect? No

- 7) Does this rulemaking contain an automatic repeal date? No

- 8) Do these proposed amendments contain incorporations by reference? No

- 9) Are there any other proposed amendments pending on this Part? Yes

SUBPART E: GROUP CARE

Section 140.560 Components of the Base Rate Determination

Except as specified otherwise in this Section, rates calculated for the rate year beginning July 1, 1990, and for subsequent years thereafter shall be based on the facility's cost report for the facility's full fiscal year ending at any point in time during the previous calendar year as long as that cost report is filed prior to April 1. Otherwise, the latest cost report available on March 31 will be used to set rates for July 1. For example, if a facility with a December 31, 1989, year end files their cost report prior to April 1, 1990, that cost report will be used to set rates for the rate year to begin on July 1, 1990. In this example, if the December 31, 1989, cost report is not filed until after March 31, 1990, the December 31, 1988, cost report will be used to set rates for the rate year to begin on July 1, 1990.

- a) In the case of a change in ownership of a previously certified facility, the rate issued to the previous owner will be in effect for the remainder of the rate year. A new rate will be calculated for

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

Section 140.560(a) (continued)

the next rate year based on the new owner's cost report if a cost report covering a minimum of the first six months of operation is received by the Office of Health Finance prior to April 1st. If a cost report covering the first six or more months of operation for the new owner cannot be filed with the Office of Health Finance prior to April 1st, the rate will be calculated based upon the prior owner's cost report filed in accordance with the opening paragraph of this Section. A cost report which has not been completed in accordance with the Department's rules and cost report instructions will not be considered as received until all cost report pages are properly completed.

- b) In the case of a new facility, capital reimbursement will be assigned on the receipt of the first cost report (which may be an abbreviated cost report). The support reimbursement will be set at the median for that region. The facility must then file a six month cost report, (beginning with date the first patient was admitted) which contains actual historical cost information. The capital and support rates will then be recalculated based upon this cost report. Rates so calculated will go into effect on the first day of the first month after the six month cost report is received by the Department's Office of Health Finance. The facility must obtain written verification of the initial cost reporting periods from the Office of Health Finance.

- c) When a construction addition to the building will increase the licensed bed capacity by 10 percent or more, the facility may file a revised cost report reflecting the increased capital investment. If this revised cost report is filed within 30 days of the date of the increase in licensure as determined by the Illinois Department of Public Health, any increase in the capital rate will be effective on the effective date of licensure increase. If the revised cost report is filed more than 30 days after the effective date of increase in licensure, any increase in the capital rate will be effective on the first day of the first month after the report is received by the Office of Health Finance.

- d) The rate for an individual facility has been calculated, a new rate will not be calculated during the course of the rate year except as provided in subsections (b) and (c) above.

- e) If a facility incurs building construction improvements which increase the total building cost for the current owner by ten (10) percent or more and which would raise the base year grouping, then the nursing home may file a revised cost report which reports the

DEPARTMENT OF PUBLIC AID

Section 140.560(e) (continued)

increased capital investment. The base year is defined in Section 140.570(b)(2) and Section 140.574. Table J shows the groupings. If the improvements have been completed and put into use prior to the forthcoming rate year and the cost report reflecting increased capital costs is filed prior to the beginning of the next rate year, then any increase in the capital rate will be effective on the first day of the rate year.

- f) In order to accommodate the downsizing or reduction in bed capacity of ICF/MR facilities licensed for ICF/DD or SNF/PED Services, the following provisions will apply for revisions to rates. These provisions only apply for facilities which decrease their total licensure level by 20% or more due to a decrease in the beds licensed as ICF/DD or SNF/PED. The reduced bed capacity must be appropriate to achieve one or more of the following goals: (1) achieve compliance with ICF/MR regulations, such as four or fewer persons per room, (2) achieve compliance with ICF/MR regulations in an adverse action as part of a Plan of Correction (77 Ill. Adm. Code 300.278), and (3) increase available space in order to provide services to persons with severe physical and/or medical conditions: i.e., persons who need services under Specialized Care-Health and Sensory Disabilities, Levels II and/or III (89 Ill. Adm. Code 144.150).

- 1) The facility must request pre-approval for application of these provisions from the Deputy Director of the Department's Division of Medical Operations. The written request must describe the necessity to reduce licensed bed capacity. The facility must send a schedule of the projected dates of each decrease in census. Written approval may be granted if the Deputy Director determines the change will be beneficial for the ICF/DD or SNF/PED residents.

- 2) The reduction in the number of licensed beds must be completed within a one year period following the Deputy Director's approval, unless a longer reduction period is approved by the Deputy Director at the onset of the plan.

- 3) Capital rates will initially be set based upon provisions in Sections 140.570 through 140.574 with the use of capital days at a level which is no less than 93% of the license level at the time of application for downsizing. The support rate will be calculated in accordance with provisions in Section 140.561. The census used to calculate rates under this subsection is referred to as the original census in subsection (f)(4). These initial rates will be modified for downsizing in accordance with subsection (f)(4).

Section 140.560(f)(4)(A) (continued)

- 4) The capital and support rates will be revised every six months during the approved downsizing period. These rates will also be revised on July 1 of each year. The facility must file reports of days of care provided, as requested by the Department.

A) The capital rate will be increased in proportion to the agreed upon decrease in the census for the six month period. For example, with an original census of 18,250 days and a projected census of 16,425, the initial \$6.00 capital rate will be increased to \$6.67 as follows: (the initial capital rate) is multiplied by (the original census which has been divided by a planned census reduction), or $(\$6.00) \times (18,250/16,425) = \6.67 . The projected census for each six month period will be adjusted by any difference between the projected census for the previous period and the actual census for the previous period.

B) The support rate will be increased in proportion to the planned decrease in census during the six month period, with the assumption that 50% of the support costs are fixed and 50% of the support rate is variable. The variable half of the support rate will be increased in proportion to the planned census decrease over the six month period. For example, with an original support rate of \$22.00, the estimated support rate for the six month period would be $[(.5 \times \$22) \times (18,250/16,425)] + (.5 \times \$22) = \$23.22$. The projected census for each six month period will be adjusted by any difference between the projected census for the previous period and the actual census for the previous period.

C) The program rate will be set according to the methodology described in 89 Ill. Adm. Code 144.275.

- 5) The support rate for ICF/DD facilities may not exceed the facility's HSA ceiling. Facilities having SNF/PED licenses, which are reducing facility census to comply with ICF/MR regulations which limit the number of persons per bedroom to four or fewer, may increase the facility's HSA ceiling but to no more than 125%. The exception allowing SNF/PED facilities to exceed the support rate HSA ceiling will only be based on the reduction in census to attain four or fewer persons per bedroom. If a SNF/PED facility reduces census below that required to attain four persons per bedroom, the support rate may not exceed the facility's HSA ceiling.

Section 140.560(f) (continued)

- 6) Bed Reserves. Facilities with a downsizing agreement with the Department will be exempt during the period of downsizing from the 93% or higher occupancy requirement which is specified in Section 140.523, Bed Reserves. Once the final agreed upon census has been achieved, all bed reserve requirements will again be in effect beginning with the quarter following completion of the downsizing agreement (January 1, April 1, July 1 or October 1).

Section 140.570 Capital Rate Component Determination

- a) Capital rates for all long term care facilities-- except State Institutions, Specialized Living Centers and campus facilities, and these rented pursuant to arm's-length transactions--prior to September 1, 1981, shall be reimbursed in the manner described in Sections 140.570 through 140.573. Capital rates for facilities rented prior to September 1, 1981 are set forth in Section 140.574. Capital rates for Specialized Living Centers are set forth in 140.579. Campus facilities are reimbursed in accordance with 140.583.

- b) The terms used in Sections 140.570 through 140.574 are defined as follows.

- 1) "Arm's-length transaction" means a transaction between a buyer and a seller both free to act, each seeking his own best economic interest. A transaction between related parties as defined in Section 140.537 is not considered to be an arm's-length transaction.
- 2) "Base Year" refers to the weighted average year of investment in the actual construction of the building. The Base Year is determined using the components of the building cost, which are included in the Original Building Base Cost, and the corresponding years of acquisition or construction. The year of each component of the total investment is multiplied by the cost of each year's investment. The sum of these products is then divided by the total Original Building Base Cost to yield an average year of construction. Any fractional portion of the Base Year derived from this calculation will be truncated. The Base Year will not change due to sale or lease of the building subsequent to January 1, 1978.

NOTICE OF PROPOSED AMENDMENTS

Section 140.570(b) (continued)

- 3) "Capital Days" are used to convert all capital items to per diem amounts unless otherwise specified. If a facility's occupancy rate is above 93%, then capital days shall be equal to the actual patient days. If occupancy is below 93%, then 93% of available bed days (the number of licensed beds multiplied by the number of calendar days in a period) shall be the capital days.

4) Building Basis:

- A) "Original Building Base Cost" means either the cost of construction or the cost of the latest purchase of the building in an arm's-length transaction prior to January 1, 1978. The allowable cost of subsequent improvements to the building will be included in the original building base cost. The original building base cost will not change due to sales or leases of the facility after January 1, 1978. In the case of a nursing home building constructed after January 1, 1978, the allowable construction cost plus the cost of subsequent improvements will be the original building base cost.

- B) "Current Owner's Base Cost" means the purchase price properly allocated to the long-term care portion of the building resulting from the current building owner's purchase in an arm's-length transaction. For any transaction after July 18, 1984, the current owner's base cost must be adjusted according to the provisions in Section 140.573(b).

- C) If a portion of the building is vacant or is used for functions other than a nursing home, then a portion of the building's original building base cost and the current owner's base cost will not be used in the rate calculation. This cost allocation will be based upon the proportion of the total square feet in the building being used for nursing home functions.

- 5) "Ceiling or group ceiling" means the per diem amount from Section 140. TABLE-J based upon the Base Year and Health Service Area (HSA). (See Section 140. TABLE-B) grouping for the facility.

- 6) "Dodge Construction Index" means the index of changes in construction costs from year-to-year developed from the annual publication Dodge Construction Systems Costs as published by McGraw-Hill Cost Information Systems.

NOTICE OF PROPOSED AMENDMENTS

Section 140.570(b) (continued)

- 7) "Equipment Basis" means the purchase price of the movable equipment being used for long-term care purposes resulting from the purchase in an arm's-length transaction. Any purchase of previously used equipment from another nursing home after July 18, 1984 must have the Equipment Basis adjusted according to the provisions in Section 140.573(b).

- 8) "Vehicle Basis" means the purchase price of the vehicle used for nursing home operation. Only one automobile will be allowed to be included in the vehicle basis for each facility. If a portion of the use of the vehicle is for personal purposes or for purposes other than operation of the nursing home, then this portion of the cost must not be included in the vehicle basis. The facility is responsible for maintaining records which document the portion of the vehicle's use for nursing home operation.

- 9) "Fair Rental Percentage" means the percent rate of return on investment to be used in the rate calculation. This percentage shall be the average Treasury Bill 91-day return rate for the previous 12 months, except that the minimum Fair Rental Percentage will be 9.13 percent and the maximum shall be 12 percent.

- 10) "FRV" means "Fair Rental Value". Refer to Section 140.571.

- 11) "Rounded Average Year" refers to the average year of construction of the building and building improvements. This year is used to determine the proper construction inflation factor. The average year of construction shall be determined by multiplying the year of each component of the total investment by the cost of each year's investment to yield an average year of construction or acquisition. This average age is rounded to the nearest whole year. A separate rounded average year must be calculated for the Original Building Base Cost and for the Current Owner's Base Cost.

- 12) "Updated Cost" or "Inflated Cost" refers to the appropriate cost updated for inflation.

- 6) "Rate of Return" will be 11.0% for base years which are 1979 and later and 9.13% for base years which are 1978 and earlier.

- 7) "Means New Construction Cost Per Square Foot" is defined as the costs published by the R.S. Means Company, Inc. Data will come

Section 140.570(b)(7) (continued)

from the most recent edition of the Means Square Foot Costs publication. The cost used per square foot for new construction is based upon nursing home construction projections using 40,000 square foot category with face brick with concrete block back-up and steel joists. The Means New Construction Cost Per Square Foot will be adjusted where necessary to ensure an increase of at least a three percent from the previous year but no more than a seven percent increase.

8) "Square Feet Per Bed" is defined as 316 square feet per bed.

This was the average for existing long term care facilities in Illinois.

9) "Location". The long term care facilities will be separated into one of the following areas:

Northeast area - HSAs 6, 7, 8, 9

Downstate area - HSAs 1, 2, 3, 4, 5, 10, 11

10) "Uniform Building Value" is calculated using the following steps:

A) The Means New Construction Cost Per Square Foot is multiplied by 316 square feet per bed to obtain a preliminary cost per bed. For example, \$68.65 cost per square foot times 316 equals a \$21,693 preliminary cost per bed.

B) The preliminary cost per bed is multiplied by an adjustment factor to obtain the revised cost per bed for new construction. The adjustment factor is 1.30 for the northeast area and 1.19 for the downstate area. For example, a \$21,693 preliminary cost per bed times the 1.30 factor equals a \$28,200 revised cost per bed for the northeast area.

C) The revised cost per bed for new construction will be the uniform building value for any facility for which the base year is the same as the current year. The current year is the calendar year in which the rate year starts. The uniform building value for facilities with a base year which is older than the current year will have the revised cost per bed for new construction discounted by a 3% obsolescence factor for each year between the base year and the current year. The uniform building value will be no

Section 140.570(b)(10)(C) (continued)

lower than ten percent of the revised cost per bed for new construction. For example:

Base Year	Factor	Uniform Building Value
1991	100%	\$28,200
1990	97%	\$27,354
1989	94%	\$26,508
1988	91%	\$25,662
1987	88%	\$24,816
1986	85%	\$23,970
--		
1975	52%	\$14,664
--		
1960	10%	\$ 2,820

11) "Building Specific Historical Cost Per Bed" is the inflated original building base cost divided by the number of licensed beds on the cost report used to calculate rates for the rate year. If licensed beds changed during the cost report period, the licensed beds on the last day of the cost report period will be used as the divisor. The original building base cost is inflated based upon the Dodge Construction Index and the base year.

12) The "ERVWC" factor relates to equipment, rent, vehicle and working capital cost. The ERVWC factor will be the greater of \$1.75 per diem or the amount from the following calculation based upon a sample of 50% or more of all long term care facilities:

A) Working Capital: Allowable support costs, nursing or program costs and administrative costs will be updated for inflation and be divided by Capital days and multiplied by 60 days to yield two months of Working Capital investment on a per diem basis.

B) The per diem investment in equipment and vehicle will be added to the working capital investment on a per diem basis (the vehicle investment is limited to fifty cents per diem). This total investment is multiplied by 9.13%.

C) The result of Step B is added to the per diem equipment rent cost to obtain an ERVWC base factor.

NOTICE OF PROPOSED AMENDMENTS

Section 140.570 (continued)

- c) Any items of fixed equipment which are no longer in use or are not providing significant value for inpatient long term care purposes must not be reported on the cost report fixed asset schedules for land, buildings, equipment and vehicle. For example, portions of a building not being used for nursing home operations must not be reported. Any assets which were removed from the cost report depreciation schedules prior to the 1986 cost report due to the asset being fully depreciated may not now be included in the building or equipment basis. Also, if a vehicle is used partially for personal purposes or purposes other than operation of the nursing home then this portion of the cost must not be included in the vehicle cost section of the cost report.

- d) No asset may be included in the building-building or equipment basis unless complete documentation for the cost and year of purchase or construction is maintained. This data must be maintained to facilitate efficient audit reviews by representatives of the Department.

(Source: Amended at 16 Ill. Reg. _____, effective _____)

Section 140.571 Fair-Rental-Value-(FRV)-Capital-Rate-Calculation

- a) The per-diem investment is determined for each of the following components--building, movable equipment, vehicle, and working capital.
- b) Building--Use the lower of steps shown in subsections (1) or (2) below to determine the per diem investment in the building.
- 1) Determine the Original Building-Base-Cost and the resulting Rounded-Average-Year--The Original Building-Base-Cost is then updated based upon the Dodge-Construction-Index-inflation factor for the appropriate Rounded-Average-Year.
 - 2) Determine the Current Owner's Base-Cost and the resulting Rounded-Average-Year--The Current Owner's Base-Cost is then updated based upon the Dodge-Construction-Index-inflation factor for the appropriate Rounded-Average-Year.
 - 3) The lower of the updated building cost from subsections (1) or (2) will be divided by capital days to determine the per diem updated building investment.

NOTICE OF PROPOSED AMENDMENTS

Section 140.571 (continued)

- e) Movable equipment--The allowable equipment cost for the current owner is updated from the midpoint of the facility's cost report period to the midpoint of the rate year with the Chase-Econometrics-Producer-Price-Index for Furniture and Household Durables--This updated cost is divided by Capital-Days to determine the per diem updated equipment investment.
- f) Vehicle--The original allowable purchase price of the vehicle is inflated from the midpoint of the facility's cost report year to the midpoint of the rate year by using Chase-Series-Implicit-Price Deflator--Consumer-Expenditures for motor vehicles and parts--The inflated vehicle cost is divided by Capital-Days to determine the per diem updated equipment investment--Only one automobile will be allowed per facility.
- g) Working-Capital--Allowable support costs, nursing or program costs, and administrative costs, will be updated for inflation, and be divided by capital days and multiplied by 60 days to yield two months of working-capital investment on a per diem basis.
- h) Return-on-Investment--The per diem investments from subsections (b) through (g) are summed and multiplied by the Fair-Rental-Percentage. The resulting per diem amount is the return on investment.
- i) Equipment-Rental--The allowable equipment rental cost is divided by the Capital-Days to determine the per diem equipment rental.
- j) Fair-Rental-Value-Rate--The lower of the following will become the per diem FRV-Rate.
- 1) The total of return on investment from subsection (f) and equipment rental from subsection (g).
 - 2) The Group-Ceiling for this facility--The appropriate Group Ceiling is determined based upon the Base-Year of the building and the NSA.
- k) Determination of Blended Value
- 1) The capital rate will be calculated through a blending of (A) the uniform building value and (B) the building specific historical cost per bed.
 - 2) If the building specific historical cost per bed (B) is less than the uniform building value (A), the blended value will be

Section 140.571(a)(2) (continued)

one-half of the difference between (A) and (B) added to (B) the building specific historical cost per bed.

For example, if (b) is \$16,000 and (A) is \$20,000, the blended value will be \$18,000.

- 3) If the building specific historical cost per bed (B) is greater than the uniform building value (A), the blended value will be one-half of the difference between (A) and (B) added to (A) the uniform building value. In this situation, the blended value will be limited to 120% of the uniform building value (A).

For example, if (B) is \$28,000 and (A) is \$16,000, the blended value will be \$19,200.

b) Rate Calculation

- 1) The blended value will be divided by 339 days. (The 339 days is 365 days times a 93% occupancy standard.)
- 2) The per diem value will be multiplied by the rate of return to obtain a building rate factor.
- 3) The ERVWC factor will be added to the building rate factor to obtain the preliminary capital rate.
- 4) The capital rate will be the greater of the preliminary capital rate from 3) or an implementation capital rate which is 11% of the FY'91 capital rate paid to the same licensed provider.

Section 140.572 Total Capital Rate

The total capital rate will be the FRV-rate from Section 140.571(a)(b)(4), plus the property tax rate from Section 140.578(b).

(Source: Amended at 16 Ill. Reg. _____, effective _____)

Section 140.573 Other Capital Provisions

- a) If at the time of field audit, the auditors find that the records to support capital costs are not adequate to issue an unqualified

opinion, that facility's capital reimbursement will not be allowed to exceed two-thirds of the Ceiling Rate for the proper base year and HSA grouping the rate calculated from use of the uniform building value. The 120% blending factor in Section 140.571(a)(3) will not be allowed.

- b) For any change of ownership after July 18, 1984, the cost basis of any asset shall be the lesser of the allowable acquisition cost of such asset of the first owner of record on or after July 18, 1984, or the acquisition cost of such asset to the new owner.

Section 140.574 Capital Costs-Rates for Rented Facilities

Capital costs-rates for facilities rented pursuant to arms-length transactions shall be reimbursed in the following manner:

- a) Facilities rented pursuant to arms-length transactions prior to September 1, 1981, between unrelated parties shall receive their actual allowable per diem rental costs (with 93% imputed occupancy as specified in Section 140.570(b)(3)) up to 125% of their geographical group median of rental expense determined from the base year cost report, plus an allowance for working capital, owned and rented equipment, and vehicle value which are computed pursuant to Section 140.571 (e) through (g) multiplied by the Fair Rental Percentage. The maximum reimbursement for rental facilities will be the ceiling consistent with the owned facilities as defined in Section 140.570(b)(5). 15) Summary and Purpose of Amendments:

The U. S. Department of Education's Office of Special Education Programs (OSEP) is requiring that we make the two changes included in this set of proposed amendments.

First, the word "major" is being deleted from the phrase "a major change in placement" in Section 226.605(b)(4), with the result that a Level I hearing may be requested pursuant to an objection to any change in a child's placement (instead of an objection to a major change). This liberalizes the list of reasons for which a child's parents or other representatives, a local school district, or a student acting on his or her behalf may request a Level I hearing. This is the only change in Section 226.605.

Rights of various parties during a hearing are set forth in Section 226.640. OSEP has indicated that a child's parents have the right to decide whether the child shall be present. Subsection 226.640(b) is being amended to reflect this requirement. Language has also been added to subsection (a) of this rule to make the role and authority of the hearing officer clear.

Section 200.200 Applicability

Unless otherwise provided in an Act, in a rule adopted pursuant to an Act which is more specific than the Section(s) contained in this Part, or in a rule adopted pursuant to an Act which provides greater administrative due process to any party to an administrative proceeding than the comparable Section(s) contained in this Part, the Sections of this Part are applicable to and shall govern under each Act.

Section 200.202 Notice of Summary Action

An order imposing summary action affecting any license or licensee is effective upon completion of service pursuant to the provisions prescribed in the specific Act. Such application, when filed after one year, may be refused by the Director unless the person or party shows change(s) in condition or situation to establish why the denial, refusal or revocation of the license shall not be deemed a bar to the issuance of a new license.

Section 200.220 Computation of Time

The time within which an action required by the Act shall be done shall be computed by excluding the first day and including the last, unless the last day is a Saturday, Sunday or legal holiday, and then it shall also be excluded. Section 200.240 Information Unknown or Not Reasonably Available

Information required need be given only insofar as it is known or reasonably available to the licensee or applicant. If any required information is unknown and not reasonably available to it, either because the obtaining thereof would involve unreasonable effort or expense, or because it rests peculiarly within the knowledge of another person not affiliated with the licensee or applicant, the information may be omitted, subject to the following conditions:

- The licensee or applicant shall give such information on the subject as it possesses or can acquire without unreasonable effort or expense, together with the sources thereof.

SUBPART D: PROCEDURES FOR ADMINISTRATIVE HEARINGS

Section 200.400 Preamble

The purpose of this Subpart is to assist all parties subject to the jurisdiction of the Department of Financial Institutions by providing a forum for the orderly determination of rights, duties and privileges of parties appearing before the Director or the Director's authorized representative under procedures assuring such parties due process of law without unnecessary postponements or extended delays.

Section 200.402 Qualifications and Duties of the Administrative Law Judge

- a) The Administrative Law Judge shall meet the following standards and qualifications:
- 1) be of high integrity and of good personal repute;
- 2) be admitted to practice law in the State of Illinois and be a member in good standing of the Bar of Illinois for at least three (3) years; and
- 3) be familiar with the Sections contained in this Part and the Act.
- b) An Administrative Law Judge shall rule on procedure and the admissibility of evidence and shall make findings of fact, conclusions of law and recommendations.
- c) The final decision in all hearings shall be made by the Director or

the Director's authorized representative after consideration of the findings of fact, conclusions of law, and recommendations of the Administrative Law Judge.

- d) No Administrative Law Judge shall be assigned to any hearing in which he/she or an immediate family member has any financial interest in the outcome of the hearing or that involves a party who has employed the Judge or who has had a contractual relationship with the Judge within one year prior to the hearing.

Section 200.404 Notice of Hearing

- a) Unless otherwise required, each respondent shall be given a Notice of Hearing at least forty-five (45) days prior to the first date set for any hearing hereunder. Once such notice is given it will thereafter be the responsibility of the respondent to become acquainted with subsequent hearing dates.

- b) The Notice of Hearing shall include:

- 1) a statement of the time, place and nature of the hearing;
- 2) a statement of the legal authority and jurisdiction under which the hearing is held;
- 3) a short and plain statement of the matters alleged and the official file or other reference number;

- 5) a reference to the particular Sections of the substantive and procedural statutes and rules involved; and
- 6) a concise statement to each respondent that:

A) the respondent may be represented by legal counsel, may present evidence, may cross-examine witnesses and otherwise participate;

B) failure by any respondent to appear shall constitute default by such respondent unless such respondent has filed an answer or, upon due notice, moved for and obtained a continuance; and

C) delivery of notice to the designated representative of any respondent constitutes service upon such respondent.

- c) Nothing in this Part shall prevent the Department from scheduling a hearing within ten (10) days of the date on which the Director temporarily suspends or revokes any license under the Act or issues a temporary order.

- d) When a respondent timely requests a hearing on an Order issued by the Director under the Act, the Department shall issue a Notice of Hearing in the form prescribed herein.

- e) Any contention that improper notice was given shall be deemed waived unless it is raised by the respondent prior to argument on any other motion or commencement of opening statements at the hearing.

- f) Unless otherwise provided, proper notice is given by depositing a

Notice of Hearing with the United States Postal Service, either by certified or registered mail, return receipt requested, to the last known address of the respondent, or by personal service upon the respondent.

Section 200.406 Institution of a Contested Case by the Department

A contested case is instituted by the Department when a Notice of Hearing is deposited with the United States Postal Service, either by certified or registered mail, return receipt requested, to the last known address of the respondent, or by personal service upon the respondent or as specified in a particular Act.

Section 200.408 Requirement to File an Answer

- a) In each contested case instituted by the Department, each respondent shall file with the Department an Answer within thirty (30) days after the service of the Notice of Hearing or within ten (10) days after each amended Notice of Hearing which materially alters the Notice of Hearing or within ten (10) days after service of a Notice of Hearing issued pursuant to Section 200.404(c) of this Part. Each Answer shall be in writing, signed by each respondent or the respondent's representative, and shall contain a specific response to each allegation in the Notice of Hearing or each new allegation contained in a materially altered Notice of Hearing and set forth affirmative defenses, if any. The response shall either admit or deny each allegation, or shall state that the respondent has insufficient information to admit or deny the allegation.
- b) Any Answer which states that the respondent has insufficient information to admit or deny any allegation shall be accompanied by an affidavit attesting to the truth of this assertion.
- c) If, within thirty (30) days after service of such Notice of Hearing, the respondent does not answer or otherwise file a responsive pleading, the respondent shall be held in default.

Section 200.410 Amendment or Withdrawal of the Notice of Hearing

- a) The Notice of Hearing may be amended at any time to correct pleading or notice deficiencies. An Amended Notice of Hearing shall be filed in the same manner as a Notice of Hearing or be presented to the Administrative Law Judge and each respondent during the course of the hearing. A continuance shall be granted by the Administrative Law Judge whenever the amendment materially alters the Notice of Hearing, and when a respondent demonstrates that any respondent would otherwise be unable to properly prepare an Answer to the Amended Notice of Hearing or prepare any respondent's case.
- b) A Notice of Hearing may be withdrawn without prejudice by the Department at any time prior to the hearing. After a hearing has

begun, a Notice of Hearing may be withdrawn only upon written notice to, and concurrence by, the Administrative Law Judge.

Section 200.412 Representation

- a) Any individual may appear personally on his or her own behalf.
- b) A party may be represented by an attorney. The attorney shall be licensed in Illinois. Attorneys who appear in a representative capacity must file a written notice of appearance setting forth:
 - 1) the name, business address and telephone number of the attorney;
 - 2) the name and address of the party represented; and
 - 3) an affirmative statement indicating that the attorney is licensed in Illinois.
- c) A corporation may be represented by an officer, upon presentation to the Department of a duly executed resolution of the Board of Directors, authorizing the officer to act in a representative capacity and setting forth the powers which the officer is authorized to exercise.
- d) A partnership may be represented by any general partner.
- e) Attorneys appearing before the Department shall conform their conduct to the Illinois Code of Professional Responsibility, effective August 1, 1990. Any failure to behave in a manner which permits the efficient functioning of the hearing process shall authorize the Administrative Law Judge to take the following actions:
 - 1) substitution of written argument in place of oral argument; or
 - 2) exclusion of an attorney from the proceeding for conduct that impedes an orderly determination of the rights of the parties.
- f) If any of the above actions are taken by the Administrative Law Judge, it shall be done as a matter of record, and the Administrative Law Judge shall state for the record the specific reasons therefor.

Section 200.414 Special Appearance

Prior to filing any other pleading or motion, a special appearance may be made either in person or by attorney for the limited purpose of objecting to the jurisdiction of the Department. Every appearance not expressly designated a special appearance shall be deemed to be a general appearance. If the reasons for objecting to jurisdiction are not apparent from the papers on file in the proceeding, the special appearance shall be supported by affidavit setting forth the reasons. In ruling upon any objection at any hearing, the Administrative Law Judge may consider all matters apparent from the papers on file, affidavits submitted by any party, and any other evidence adduced upon disputed issue of fact. No determination of any issue of fact in connection with the objection is a determination of the merits of the case or any aspect thereof. A ruling adverse to the objector does not preclude him or her from making any motion or defense which he or she might otherwise have made. If the Administrative Law Judge sustains the objection, an appropriate order shall be entered of record after review by a designated representative of the Director. Error in ruling against the objection is not waived by the

objector's taking part in further proceedings in the matters.

Section 200.416 Substitution of Parties

An Administrative Law Judge shall order a substitution of parties on his own motion or upon the motions of any party to assure a complete adjudication of the issues presented in a hearing.

Section 200.418 Failure to Appear

Failure to appear at the time and place set for hearing shall be deemed a waiver of the right to present evidence or otherwise participate at the hearing. After presentation by the Department of proof that the respondent was given proper notice, the Administrative Law Judge shall make a recommendation to the Director. When the Department fails to appear, the Notice of Hearing will be dismissed.

Section 200.420 Motions

- a) Motions shall be made in writing, unless otherwise allowed by the Administrative Law Judge during the course of a hearing. Written motions shall be limited to the following:
 - 1) to request dismissal of a Notice of Hearing for failure to state facts which, if true, would form a sufficient basis for the issuance of an Order or other sanctions;
 - 2) to request sanctions in accordance with Section 200.412 of this Part;
 - 3) to request sanctions in accordance with Section 200.430 of Part;
 - 4) to request dismissal of Notice of Hearing where the Department's case has been concluded without sufficient evidence having been presented to form a basis for the issuance of an Order or other sanction;
 - 5) to request a continuance, or extension of time, upon good cause shown in accordance with Section 200.422 of this Part;
 - 6) to request an Order granting a rehearing or additional hearings;
 - 7) to request that an Administrative Law Judge deem a failure to file an Answer to be an admission of the truth of the allegations contained in the Notice of Hearing;
 - 8) to request that an Administrative Law Judge be disqualified from the hearing for bias, conflict of interest or prejudice;
 - 9) to request that an Order be vacated or modified;
 - 10) to request separation of cases joined by the Department;
 - 11) to request that any party be held in default;
 - 12) to request consolidation of cases or parties;
 - 13) to request an Order limiting a response to a demand for bill of particulars or a request for discovery; and
 - 14) to request an Order, consistent with the expedited nature of administrative hearings, extending the time to complete discovery if it cannot be completed within the time limit set forth in

DEPARTMENT OF FINANCIAL INSTITUTIONS

NOTICE OF ADOPTED RULES

Section 200.430 of this Part.

- b) When any motion is filed, the Administrative Law Judge may allow oral argument if this is deemed necessary to a fuller understanding of the issues presented. If facts are alleged as a basis for the request that are not a part of the record in the case, an affidavit shall be attached to the motion setting forth such facts.

Section 200.422 Requirements Relating to Continuances

- a) A request for continuance of a hearing shall be subject to the discretion of the Administrative Law Judge. Such continuance maybe granted, for good cause shown, provided the request is received by the Administrative Law Judge and each party or authorized representative of record not less than five (5) days prior to the latest hearing date unless good cause for a continuance is shown prior to or during the hearing or between hearing dates due to the need for new evidence, sudden unavailability of counsel, sudden illness of a party or an essential witness, or similar reasons. Such request shall be in writing and shall set forth the grounds alleged therefor. Oral requests for continuances shall not be granted unless made during the hearing for good cause. "Good Cause" is shown when a petitioner or respondent demonstrates a real and compelling need for additional time. "A real and compelling need" includes, but is not limited to, service in the armed forces or serious illness, relating to either party, that party's authorized representative of record, or essential witnesses.
- b) A continuance, when granted, shall state a date certain, not more than sixty (60) days from the prior scheduled hearing date, when the hearing shall reconvene.
- c) Continuances may be granted for the purposes of allowing the parties to complete discovery requests made pursuant to Section 200.430 of this Part, but only when, upon "Good Cause" shown in accordance with subsection (a) above, discovery could not be completed prior to the scheduled date of hearing.

Section 200.424 Rules of Evidence

- a) The Administrative Law Judge shall have authority to conduct the hearing, to administer oaths, to examine witnesses, to rule upon the admissibility of evidence, and to subpoena witnesses or documents at the request of any party.
- b) The technical rules of evidence shall not apply. Any relevant or material evidence may be admitted if it is the sort of evidence relied upon by reasonably prudent men in the conduct of their affairs, regardless of the existence of any common law or statutory rule which excludes the admission of such evidence over objection in civil cases in the Circuit Courts of Illinois. The rules of privilege shall be followed to the same extent that they are recognized in civil or criminal cases in the Circuit Courts of Illinois. Irrelevant,

immaterial and unduly repetitious evidence may be excluded. Objections to evidentiary offers must be timely made and noted in the record. When a hearing will be expedited and the interests of the parties will not be prejudiced, any part of the evidence may be received in written form. Subject to the evidentiary requirements of this subsection, a party may conduct the cross-examination required for a full and fair disclosure of the facts.

- c) Official notice may be taken of matters of which the Circuit Courts of Illinois may take judicial notice. In addition, notice may be taken of the Department's specialized knowledge in the Act. Parties shall be notified either before or during the hearing, or by reference in preliminary reports or otherwise, of the material noticed, and they shall be afforded an opportunity to contest the material so noticed.
- d) Subsections (a), (b) and (c) above do not relieve any party from its respective burden of proof or requirement to go forward with the presentation of evidence.

Section 200.425 Standard of Proof

Unless otherwise provided by law, the standard of proof in any contested case hearing conducted by the Department of Financial Institutions shall be the preponderance of the evidence.

Section 200.426 Form of Papers

All papers filed or submitted to the Department in a contested case shall be typewritten on 8 1/2 by 11 inch white paper. The first page of each document shall set forth the name of each of the respondents and the file number assigned to the case by the Department. All pleadings must be signed by the party filing the same or authorized representative or attorney, and shall contain the party's business address and telephone number. A copy of any pleading shall be filed with the Administrative Law Judge, and the original served upon the attorney of record of the Department.

Section 200.428 Bill of Particulars

- a) Upon written demand made not more than fifteen (15) days after service of the Notice of Hearing and prior to the demanding party filing an answer to the Notice of Hearing, a party shall furnish to other parties a written bill of particulars.
- b) A response to a demand for bill of particulars shall be provided to each other party within ten (10) days after service of the written request.

Section 200.430 Discovery

 - 2) copies of each document which may be offered as evidence; and
 - 3) a description of any other evidence which may be offered.
- c) The above information will be provided within ten (10) days after service of a written request.
- d) Whether or not a request is made, during discovery a respondent shall be entitled to:

- 1) any exculpatory evidence in the Department's possession. Exculpatory evidence is any evidence which tends to support the respondent's position or to call into question the credibility of a Department witness; and
- 2) copies of any investigative report which purports to be a memorandum of interview of the respondent.

- e) Upon a written request served on the respondent at any time after a Notice of Hearing is filed, or at any stage of the hearing, the respondent will be required to produce within ten (10) days after service of a written request nonprivileged documents, books, records or other evidence which relate to the issues set forth in the Notice of Hearing.

- f) No file of a Department examiner, investigator or attorney shall be subject to discovery except as stated in subsection (d) above relating to exculpatory evidence and memoranda of interviews of a respondent.

- g) In accordance with Section 200.436 of this Part, in large or complex cases, at the discretion of the Administrative Law Judge, a pre-hearing conference with the parties and the Administrative Law Judge may be scheduled in appropriate cases. Consistent with the expedited nature of administrative hearings, the Administrative Law Judge may, at the pre-hearing conference, establish the extent of and schedule for the production of relevant documents and other information, including the deposition of witnesses.

- h) Subject to constitutional privileges and to grants of confidentiality under the Act and the Illinois Freedom of Information Act (Ill. Rev. Stat. 1991, ch. 116, par. 201 et seq.) a party may serve on any other party a written request for the admission by the latter of the truth of any specified relevant fact set forth in the request or for the admission of genuineness of any relevant documents described in the request. Copies of the documents shall be served with the request unless copies have already been furnished. The failure of a party to respond to a request within ten (10) days after service shall be deemed to be an admission thereof.

- i) These provisions shall be construed to impose a continuing obligation upon the parties to exchange new information as it becomes available.

Section 200.432 Examination of Witnesses

- b) If the Administrative Law Judge determines that a witness is hostile or unresponsive, the Administrative Law Judge shall authorize the examination by the party calling him or her as if under cross-examination.
- c) The Department may call any adverse party as a witness without vouching for his or her credibility and proceed to examine such adverse party as if under cross-examination. Any party calling a witness, upon showing that he or she called the witness in good faith and is surprised by his or her testimony, may impeach that witness by evidence of prior inconsistent statements.
- d) Oral evidence shall be taken only on oath or affirmation.

Section 200.434 Subpoenas

- a) Subpoenas for the attendance of witnesses from any place in the State of Illinois, or for the production of books, papers, accounts or documents at a hearing in a pending proceeding, shall be issued by the Department upon its own motion, and shall be issued upon application in writing by a party incorporating a showing that any such subpoena is reasonably required.

- c) The costs, unless otherwise provided, for the preparation and service of each subpoena and the payment of witness fees shall be borne by the requesting party.

Section 104.272 Withholding of Payments During Pendency of Proceedings

a) Payments on pending and subsequently submitted bills may be withheld during the pendency of the administrative proceeding, except that if a final administrative decision has not been issued within 120 days of service of the notice of intent to terminate, unless delay has been caused by the vendor, payment can no longer be withheld. Section 104.273 Continuation of Payments During Pendency of Proceedings

The Department will continue to make payments during the pendency of an administrative proceeding in the following circumstances:

Section 104.273(b)(3) (continued)

continue to make payments process invoices for services rendered by the vendor subject to setoff for recovery of the amount sought in the proceeding, unless the Director of the Department decides that failure to withhold will result in the potential permanent loss of State funds (for example, if the vendor is about to leave the State or is about to become insolvent).

- 4) If the administrative proceeding only relates to suspension and not termination of eligibility, the Department will continue to make payments for services rendered by the vendor.

(Source: Amended at 16 Ill. Reg. 12903, effective August 15, 1992)

13) Will this rule replace an Emergency Rule currently in effect? No

14) Are there any amendments pending on this Part? No

15) Summary and purpose of rules: This Part provides for the establishment of an airport hazard area in the vicinity of the Ingersoll Airport. This Part provides for the safety of the aircraft and persons on the ground by governing surfaces and height limitations in respect to structures erected or altered in the vicinity of the airport.

Elsewhere in this issue of the Illinois Register, the Department is repealing the old Part 50 and replacing it with this new Part.

A complete description of the significant differences between the repealed rules and the new rules follows. These changes have been made to other airport hazard zoning regulations promulgated by the Department at the suggestion of the Joint Committee on Administrative Rules.

In the definition of "Airport Elevation," the elevation has changed from 682' to 684'. In the definition of "Airport Reference Point," the point has changed from 40 34'15", 90 04'30" to 40 34'13", 90 04'27".

The following definitions were added to the new Part: "Circling Approach Area," "Departure Area," "Final Approach Segment," "Flight Safety Coordinator," "Initial Approach Segment," "Intermediate Approach Segment," "Minimum Instrument Flight Altitude," "Non-Precision Instrument Runway," "Obstacle Clearance," "Precision Instrument Runway," "Tree," "Utility Runway," "Visibility Minimums," and "Visual Runway."

These definitions were deleted from the new Part: "Growth," "Instrument Runway," and "Non-Instrument Runway."

The definition of "Runway" has changed to include other runway surfaces.

Section 50.30 of the new Part is a combination of the Sections on zones and height limitations in the old Part.

All zones are renamed "surfaces" and are updated to current dimensions.

New provisions have been added concerning the "Circling Approach Surface," the "Terminal Obstacle Clearance Area," and the "Excepted Height Limitations" in Section 50.30.

In Section 50.40 of the new Part, smoke has been added as a use restriction.

Old Section 50.50(b) and Section 50.70 have been deleted from the new Part. These Sections have to do with the land use restriction zone and spacing adjacent airports.

In Section 50.60 of the new Part, standards for approval of a permit have been set out.

Section 50.90, Notice of Construction or Alteration, is a new Section.

The references to 92 Ill. Adm. Code 18, Exhibits A, B, and C have been removed from the new Part because they are inappropriate.

Section 50.10 Introduction

- a) This Part regulates and restricts the height of structures and trees, and otherwise regulates the use of property in the vicinity of the Ingersoll Airport by creating appropriate surfaces and establishing the boundaries thereof; providing for changes in the restrictions and boundaries of such surfaces, defining certain terms used herein; referring to the Ingersoll Airport zoning map (Note: This zoning map can be

b)

This Part is adopted at the request of the Canton Park District, as owner and operator of Ingersoll Airport, pursuant to the authority conferred by the Airport Zoning Act (Act) (Ill. Rev. Stat. 1991, ch. 15 1/2, pars. 48.1 et seq.). IT IS HEREBY FOUND THAT AN AIRPORT HAZARD ENDANGERS THE LIVES AND PROPERTY OF USERS OF Ingersoll Airport AND OF OCCUPANTS OF LAND OR PROPERTY IN ITS VICINITY, AND ALSO, IF OF THE OBSTRUCTION TYPE, IN EFFECT REDUCES THE SIZE OF THE AREA AVAILABLE FOR THE LANDING, TAKING-OFF AND MANEUVERING OF AIRCRAFT, THUS TENDING TO DESTROY OR IMPAIR THE UTILITY OF Ingersoll Airport AND THE PUBLIC INVESTMENT THEREIN.

1) ACCORDINGLY, IT IS DECLARED:

- A) THAT THE CREATION OR ESTABLISHMENT OF AN AIRPORT HAZARD IS A PUBLIC NUISANCE AND AN INJURY TO THE region SERVED BY Ingersoll Airport;
- B) THAT IT IS NECESSARY IN THE INTEREST OF THE PUBLIC HEALTH, PUBLIC SAFETY AND GENERAL WELFARE THAT THE CREATION OR ESTABLISHMENT OF AIRPORT HAZARDS BE PREVENTED; AND
- C) that the prevention of these hazards SHOULD BE ACCOMPLISHED, TO THE EXTENT LEGALLY POSSIBLE, BY THE EXERCISE OF THE POLICE POWER, WITHOUT COMPENSATION.
- 2) IT IS FURTHER DECLARED THAT BOTH THE PREVENTION OF THE CREATION OR ESTABLISHMENT OF AIRPORT HAZARDS AND THE ELIMINATION, REMOVAL, ALTERATION, MITIGATION, OR MARKING AND/OR LIGHTING OF EXISTING AIRPORT HAZARDS ARE PUBLIC PURPOSES FOR WHICH POLITICAL SUBDIVISIONS MAY RAISE AND EXPEND PUBLIC FUNDS AND ACQUIRE LAND or interests in land. (Section 11 of the Act)

Section 50.30 Surfaces and Height Limitations

DEPARTMENT OF TRANSPORTATION

NOTICE OF ADOPTED RULES

- a) Establishment and Creation
- 1) The following airport imaginary surfaces are established with relation to the airport and to each runway. The size of each such imaginary surface is based on the category of each runway according to the type of approach available or planned for that runway. The slope and dimensions of the approach surface applied to each end of a runway are determined by the most precise approach existing or planned for that runway end.
 - 2) Such airport imaginary surfaces are hereby created and established in order to carry out the provisions of this Part. Such surfaces shall include all of the land lying within the horizontal surface, conical surface, primary surface, approach surface to include non-precision instrument approach, precision instrument approach and visual approach, transitional surface and circling approach surface. These surfaces are shown on the Airport Zoning Map (Note: This zoning map can be viewed at the Department of Transportation, Division of Aeronautics, One Langhorne Bond Drive/Capital Airport, Springfield, Illinois 62707-8415) for Ingersoll Airport prepared by Casler, Houser & Hutchison, Inc., Jacksonville, Ill. An area located in more than one of the following surfaces is considered to be only in the surface with the more restrictive height limitation.
 - 3) Except as otherwise provided in this Part, no structure or tree shall be erected, altered, allowed to grow, or maintained in any surface created by this Part to a height in excess of the height limit herein established for such surfaces.
 - 4) The various surfaces described in subsections (b) through (h) are hereby established, and height limitations are established in those subsections for each of the surfaces.
- b) Horizontal Surface
- 1) A horizontal plane 150 feet above the established airport elevation of 684 feet Above Mean Sea Level (AMSL), the perimeter of which is constructed by swinging arcs of specified radii from the center of each end of the primary surface of each runway and connecting the adjacent arcs by lines tangent to those arcs. The radius of each arc is:
 - A) 5,000 feet for all runways designated as utility or visual;
 - B) 10,000 feet for all other runways.

DEPARTMENT OF TRANSPORTATION

NOTICE OF ADOPTED RULES

- 2) The radius of the arc specified for each end of a runway will have the same arithmetical value. That value will be the highest determined for either end of the runway. When a 5,000 foot arc is encompassed by tangents connecting two adjacent 10,000 foot arcs, the 5,000 foot arc shall be disregarded on the construction of the perimeter of the horizontal surface. The horizontal surface does not include the approach and transitional surfaces.
- c) Conical Surface
 - 1) A surface extending outward and upward from the periphery of the horizontal surface, at 150 feet above the airport elevation, at a slope of 20 feet horizontally for each foot vertically for a horizontal distance of 4,000 feet.
 - 2) The conical surface does not include the approach surfaces to the precision instrument runways and the transitional surfaces.
- d) Primary Surface
 - 1) A surface longitudinally centered on a runway. When the runway has a specially prepared hard surface, the primary surface extends 200 feet beyond each end of that runway; but when the runway has no specially prepared hard surface, or planned hard surface, the primary surface ends at each end of that runway. The elevation of any point on the primary surface is the same as the elevation of the nearest point on the runway centerline. The width of a primary surface is:
 - A) 250 feet for utility runways having only visual approaches;
 - B) 500 feet for utility runways having non-precision instrument approaches;
 - C) For other than utility runways, the width is:
 - i) 500 feet for visual runways having only visual approaches;
 - ii) 500 feet for non-precision instrument runways having visibility minimums greater than three-fourths statute mile;
 - iii) 1,000 feet for a non-precision instrument runway having a non-precision instrument approach with visibility minimums as low as three-fourths statute mile, and for precision instrument runways.
 - 2) The width of the primary surface of a runway will be the width prescribed in this Section for the

DEPARTMENT OF TRANSPORTATION

NOTICE OF ADOPTED RULES

most precise approach existing or planned for either end of that runway.

- e) Approach Surface - A surface longitudinally centered on the extended runway centerline and extending outward and upward from each end of the primary surface. An approach surface is applied to each end of each runway based upon the type of approach available or planned for that runway end.

1) The inner edge of the approach surface is the same width as the primary surface and it expands uniformly to a width of:

- A) 1,250 feet for that end of a utility runway with only visual approaches;
- B) 1,500 feet for that end of a runway other than a utility runway with only visual approaches;
- C) 2,000 feet for that end of a utility runway with a non-precision instrument approach;
- D) 3,500 feet for that end of a non-precision instrument runway other than utility, having visibility minimums greater than three-fourths statute mile;
- E) 4,000 feet for that end of a non-precision instrument runway, other than utility, having a non-precision instrument approach with visibility minimums as low as three-fourths statute mile; and
- F) 16,000 feet for precision instrument runways.

2) The approach surface extends for a horizontal distance of:

- A) 5,000 feet at a slope of 20 feet horizontally for each foot vertically for all utility and visual runways;
- B) 10,000 feet at a slope of 34 feet horizontally for each foot vertically with an additional 40,000 feet at a slope of 40 feet horizontally for each foot vertically for all precision instrument runways.
- C) 10,000 feet at a slope of 50 feet horizontally for each foot vertically with an additional 40,000 feet at a slope of 40 feet horizontally for each foot vertically for all precision instrument runways.

3) The outer width of an approach surface to an end of a runway will be that width prescribed in this subsection for the most precise approach existing or planned for that runway end.

- f) Transitional Surface - These surfaces extend outward and upward at right (90°) angles to the runway

DEPARTMENT OF TRANSPORTATION

NOTICE OF ADOPTED RULES

centerline and the runway centerline extended at a slope of 7 feet horizontally for each foot vertically beginning at the sides of and at the same elevation of the primary surface and the approach surfaces extending to a height of 150 feet above the airport elevation which is 684 feet AMSL. Transitional surfaces, for those portions of the precision approach surface, which project through and beyond the limits of the conical surface, extend a distance of 5,000 feet measured horizontally from the edge of the approach surface and at right (90°) angles to the runway centerline.

- g) Circling Approach Surface - This is a surface 200 feet above ground level (AGL) or above the established airport elevation, whichever is greater, within three (3) nautical miles of the established reference point of Ingersoll Airport and this surface increases in height in the proportion of 100 feet for each additional nautical mile of distance from the airport reference point up to a maximum of 500 feet.

- h) A height within a terminal obstacle clearance area, including an initial approach segment, a departure area, and a circling approach area, which would result in the vertical distance between any point on the object and an established minimum instrument flight altitude within that area or segment to be less than the required obstacle clearance.

- i) Excepted Height Limitations - Nothing in this Part shall be construed as prohibiting the growth, construction or maintenance of any tree or structure to a height up to 50 feet above the ground.

Section 50.40 Use Restrictions

Notwithstanding any other provisions of this Part, no use may be made of land or water within any surface established by this Part as follows:

- a) Electrical or Electronic Interference
 - 1) In such a manner as to create electrical or electronic interference with navigational signals or radio or radar communication between the airport and aircraft.
 - 2) If a complaint of such interference is received by the Department, a Flight Safety Coordinator shall determine if a hazard exists by observing all relevant factors including the type of aircraft using the airport, the traffic patterns at the airport, the time of day and frequency of the interference.

NOTICE OF ADOPTED RULES

- b) Flashing or Illuminated Structures
- 1) The installation and use of flashing or illuminated advertising or business signs, billboards, or any other type of illuminated structure which would be hazardous for pilots.
 - 2) In determining whether such a hazard exists, a Flight Safety Coordinator shall consider factors which include, but are not limited to, assessing the difficulty pilots have in distinguishing between airport lights and others, or which result in glare in the eyes of pilots using the airport, thereby impairing visibility in the vicinity of the airport or endangering the landing, taking-off or maneuvering of aircraft, the proximity of the illuminated structure to the airport, and the traffic patterns at the airport.
- c) Smoke
- 1) A use which would emit or discharge smoke that would interfere with the health and safety of pilots and the public in the use of the airport, or which would otherwise be detrimental or injurious to the health, safety and general welfare of the public in the use of the airport.
 - 2) In determining if such an emission or discharge of smoke would interfere with the health and safety of pilots and the public, a Flight Safety Coordinator shall consider all relevant factors which include, but are not limited to, the density of the smoke, frequency of the emission or discharge, source of the smoke, general weather patterns in the vicinity, time of day, and volume and type of aircraft which use the airport.

Section 50.50 Non-Conforming Uses

- a) Regulations Not Retroactive - Those surface regulations prescribed by this Part shall not be construed to require the removal, lowering or other changes or alteration of any structure or tree not conforming to the regulations as of the effective date of this Part or otherwise interfere with the continuance of any non-conforming use. Nothing contained in this Part shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this Part, and is diligently prosecuted.
- b) Marking and Lighting

NOTICE OF ADOPTED RULES

- 1) Notwithstanding the provisions of subsection (a) of this Section, the owner of any existing non-conforming structure is required to permit the installation, operation and maintenance of such markers and lights as shall be deemed necessary by the Department to indicate to operators of aircraft in the vicinity of the airport the presence of such airport hazards, all to be performed at the expense of the Canton Park District.
- 2) In determining the necessity for such markers and lights, the Department shall consider all relevant conditions, including but not limited to, the traffic patterns, volume and type of aircraft at the airport, the general weather patterns in the vicinity, the topography of the airport and the surrounding area, and the height of the structure and its proximity to the approach and transition slopes of the existing runways.

Section 50.60 Permits

- a) Future Uses - Except as specifically provided in subsections (a) (1), (2), and (3) of this Section, no material change shall be made in the use of land and no structure or tree shall be erected, altered, planted, or otherwise established in any surface created unless a permit shall have been applied for and granted by the Department. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure or tree would conform to the regulations prescribed in this Part. If such determination is in the affirmative, the permit shall be granted.
- 1) In the area lying within the limits of the horizontal surface and the conical surface, but which is not in violation of height restrictions of primary, transitional and approach surfaces as set forth in this Part, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground or in any approach and transitional surfaces beyond a horizontal distance of 4,200 feet from each end of the runway, except when, because of terrain, land contour or topographic features, such tree or structure would extend above the height limits prescribed for such surface.

- 2) In the areas lying within the limits of visual, precision instrument and non-precision instrument approach surfaces, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground, except when such tree or structure would extend above the height limit prescribed for such visual, precision instrument or non-precision instrument approach surfaces.
- 3) In the areas lying within the limits of the transitional surface beyond the perimeter of the horizontal surface, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground except when such tree or structure, because of terrain, land contour or topographic features would extend above the height limit prescribed for such transitional surface.
- b) Nothing contained in any of the foregoing exceptions shall be construed as permitting or intending to permit any construction, alteration or growth of any structure or tree in excess of any of the height limits prescribed by this Part.

Section 50.70 Non-Conforming Structures or Uses or Trees
Abandoned or Destroyed

- a) Whenever the Department, following a Flight Safety Coordinator's personal inspection, observation and estimation, DETERMINES THAT A NON-CONFORMING STRUCTURE or use OR TREE HAS BEEN ABANDONED OR MORE THAN 80 PER CENT demolished, DESTROYED, physically DETERIORATED, OR DECAYED:
 - 1) NO PERMIT SHALL BE GRANTED by the Department THAT WOULD ALLOW SUCH STRUCTURE or use OR TREE TO EXCEED THE APPLICABLE HEIGHT LIMIT OR OTHERWISE DEViate FROM these ZONING REGULATIONS; AND
 - 2) WHETHER APPLICATION IS MADE FOR A PERMIT, OR NOT, THE DEPARTMENT MAY issue an order pursuant to subsection (b) of this Section, in cases where the remaining structure or use OR TREE constitutes a violation of this Part, compelling THE OWNER OF THE NON - CONFORMING STRUCTURE or use OR TREE, AT HIS OWN EXPENSE, TO LOWER, REMOVE, RECONSTRUCT, OR EQUIP SUCH structure or use OR TREE AS MAY BE NECESSARY TO CONFORM TO these zoning REGULATIONS. IF THE OWNER OF THE NON-CONFORMING STRUCTURE or use OR TREE SHALL NEGLECT OR REFUSE TO COMPLY WITH SUCH ORDER within ten DAYS AFTER NOTICE THEREOF, THE DEPARTMENT MAY PROCEED TO HAVE such

structure or use OR TREE SO LOWERED, REMOVED, RECONSTRUCTED OR EQUIPPED AND SHALL HAVE A LIEN, ON BEHALF OF THE STATE, UPON THE LAND WHEREON IT IS OR WAS LOCATED, IN THE AMOUNT OF THE COST AND EXPENSE THEREOF. SUCH LIEN MAY BE ENFORCED BY THE DEPARTMENT ON BEHALF OF THE STATE BY suit in equity FOR THE ENFORCEMENT THEREOF AS IN THE CASE OF OTHER LIENS. (Section 23 of the Act)

- b) The Department shall issue an order if it is determined that the non-conforming structure or use or tree interferes with traffic patterns at the airport. In making such a determination the Department shall consider factors which include, but are not limited to, the type of aircraft using the airport, and whether or not the airport has precision instrument or instrument runways.

Section 50.80 Variances

- a) General - ANY PERSON wishing to erect or increase the height of ANY STRUCTURE, OR PERMIT any GROWTH, OR USE HIS PROPERTY not in accordance with these ZONING REGULATIONS, MAY APPLY TO THE DEPARTMENT FOR A VARIANCE FROM these ZONING REGULATIONS. SUCH VARIANCES SHALL BE ALLOWED WHERE it is found that A LITERAL APPLICATION OR ENFORCEMENT OF these ZONING REGULATIONS WOULD RESULT IN PRACTICAL DIFFICULTY OR UNNECESSARY HARDSHIP AND THE RELIEF GRANTED WOULD NOT BE CONTRARY TO THE PUBLIC INTEREST BUT WOULD DO SUBSTANTIAL JUSTICE AND BE IN ACCORDANCE WITH THE SPIRIT OF these ZONING REGULATIONS. (Section 24 of the Act)
- b) Marking and Lighting - Any Variance granted by the Department may be so conditioned as to require the owner of such structure or tree to permit, at the expense of the owner, the installation, operation and maintenance of such markers and lights as may be required to indicate to pilots the presence of such structure or tree.
- c) In making the determination to allow variances the Department will consider, but is not limited to considering, the proximity of the hazard to the normal flight path or traffic patterns at the airport, the proximity of other non-conforming uses, structures or trees which would impair the use of the airport, the height of the object, the volume of air traffic at the airport, the type of aircraft using the airport, the type of navigational aids used at the airport, the length and width of existing runways, and plans for future expansion of the airport.

approach or landing aid, aircraft arresting device, or meteorological device less than 50 feet in height.

3) Any object that would be shielded by permanent and substantial existing structures of equal or greater height or by natural terrain or topographic features of equal or greater height, and would be located in the congested area of a city, town, or settlement where it is evident beyond all reasonable doubt that the structure so shielded will not obstruct or interfere with aircraft using the airport, or cause any additional adverse effect on airport operations by considering the height and location of the existing uses and structures.

- c) Form and Time of Notice

For example, an emergency could include breaks in sewer lines, gas mains or power lines.
- d) Acknowledgment of Notice
- 1) The Department will acknowledge in writing the receipt of such notice submitted under subsection (a) of this Section within 30 days after receipt of such notice.

Section 1.350 Delegation of Procurement Authority
EMERGENCY

- a) An agency with primary procurement responsibility may delegate procurement authority to any state agency in any reasonable manner if necessary or desirable. Such delegation shall require compliance with applicable procurement statutes and rules. An agency delegated procurement authority may not sub-delegate that authority without first obtaining approval of the agency with primary procurement responsibility. If any private entity is involved in the process, writing specifications, evaluating bids or for any other reason the private entity's role shall be advisory only. All final decision

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

shall rest with the procuring agency.

b) The Department of Central Management Services delegates to each agency responsibility for procurements in emergency situations. The agency shall, to the extent practicable, obtain needs in the most competitive manner possible.

c) The Department of Central Management Services delegates to each agency responsibility for obtaining goods or services available from the Department of Corrections' Correctional Industries program.

d) The Department of Central Management Services delegates to each agency responsibility for obtaining commodities, equipment, supplies and utilities for their own use up to and including \$25,000 for single items, and up to and including \$50,000 for multiple items provided no single item exceeds \$25,000.

1) For delegated procurements under \$5,000, agencies shall use their discretion to determine whether to seek competition. CMS will issue blanket authorizations and establish obligations with the Comptroller.

2) For delegated procurements between \$5,000 and \$50,000, agencies shall, whenever practicable, contact at least three vendors from the CMS vendor list, provide them with the same information regarding the agency's needs and any conditions that must be observed and accept the lowest price provided the offering meets the agency's needs and conditions. If vendors not on the CMS vendor list are solicited, the agency must pre-qualify that vendor by having the vendor submit a CMS Bidder's Application Form with the vendor's offer. Agencies must submit requisitions for such procurements and CMS will issue authorizations back to the agency. CMS will establish obligations with the Comptroller.

3) For all delegated procurements, the agency must keep adequate records of the actions taken to procure the goods and must report on such activities using the form prescribed by CMS. This form will require agencies to identify the item procured, the competitive steps taken, the names of the vendors contacted, the prices each submitted, the name of the selected vendor and other such information.

4) Dividing or planning procurements to avoid use of competitive procedures ("stringing") is prohibited.

5) This delegation does not include items for which CMS establishes master, schedule or open-ended contracts, nor does it include items available from the Office Supply Warehouse (Springfield and Chicago area agencies only), nor does it include procurement

of electronic data processing equipment, telecommunications equipment, vehicles, paper or stationery. All such items must be procured by CMS and all agencies must use such contracts established by CMS.

e) Delegation may be revoked or reduced at any time.

(Source: Emergency amendment at 16 Ill. Reg. 13118, effective August 7, 1992 for a maximum of 150 days)

Section 1.515 Competitive Procurement and Procedure
EMERGENCY

a) A competitive procurement is one in which more than one potential vendor is contacted, given information describing the agency's needs and any conditions that must be observed and asked to respond with a priced quotation to meet those needs and conditions. Such information would be evaluated with the intent of selecting the vendor whose goods or services best meet the needs of the State, price and other factors being considered.

b) Except for those procurements identified in Section 1.530 which are exempt from the use of competitive procurement procedures, awards are to be made to the lowest responsible bidder meeting needs and conditions.

c) Any of the procedures described in Section 1.520, except negotiation with one vendor, are considered competitive procedures and may be used to conduct competitive procurements.

(Source: Emergency rule added at 16 Ill. Reg. 13118, effective August 7, 1992 for a maximum of 150 days)

1.530 Statutory Circumstances Allowing Negotiation
EMERGENCY

Negotiation is authorized by law in any of the following circumstances:

a) WHERE THE GOODS OR SERVICES TO BE PROCURED ARE ECONOMICALLY PROCURABLE FROM ONLY ONE SOURCE, SUCH AS CONTRACTS FOR LOCAL EXCHANGE TELEPHONE SERVICE, ELECTRICAL ENERGY, AND OTHER PUBLIC UTILITY SERVICES, BOOKS, PAMPHLETS AND PERIODICALS, AND SPECIALLY DESIGNED BUSINESS AND RESEARCH EQUIPMENT AND RELATED SUPPLIES.

The items listed above are examples of single source items and are not intended to be exhaustive. If a specific item is unique and necessary it may be a single source item even though many similar items exist. Research and breeding livestock, for example, are individually unique and may be procured under this exception to bidding.

6) If this Emergency Amendment is to Expire Before the End of the 150-Day Period, Please Specify the Date on Which it is to Expire: This emergency amendment will not expire before the end of the 150-day period.

7) Date Filed in Agency's Principal Office:

August 4, 1992.

8) Reason for Emergency:

This emergency rulemaking has been adopted by the Health Facilities Planning Board and by the Department of Public Health in response to requests from several legislators and large teaching hospitals that certificate of need rules be developed to address the development of very large and costly construction projects (mega-projects) which are being developed by the health care industry. The State Board has been advised that mega-project proposals with capital expenditures in excess of \$2 billion may be submitted by several facilities in the state. The costs of the planning and design phases for these mega-projects alone will exceed the present certificate of need review thresholds and require a permit or certificate of need (CON). Current CON regulations are inadequate to evaluate mega construction projects (generally those with costs in excess of \$100 million) since they may involve several phases and extend over a ten year construction period. The lack of appropriate regulations prevents

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF EMERGENCY RULES

the State Board from evaluating the merits of an overall construction plan when the design phase is submitted from review.

The State Board and Department believe that emergency rulemaking is necessary in that the potential costs to the public associated with the future expenditures constitutes a significant and substantial adverse impact to the public's welfare if such projects are unneeded and developed without adequate certificate of need review. Given the fiscal implications of such costs to the public, third party payors and to government reimbursement programs which ultimately must pay for the construction, it is essential that a mechanism be in place to evaluate the mega-projects' design and development costs as well as subsequent construction and modification projects. The emergency rules provide review criteria to evaluate mega-projects and to assess the cost impact to the public that might result from such projects. Such evaluations are mandated and consistent with the provisions of the Health Facilities Planning Act which has as its primary purpose the development of "a procedure designed to reverse the trends of increasing costs of health care resulting from unnecessary construction or modification of health care facilities."

Pursuant to the Act, the Planning Board is required to review applications for projects which involve capital expenditures in excess of capital expenditure minimum. Reviewing such applications without explicit rules could result in either Illinois foregoing appropriate modern medical facilities or incurring unnecessary capital expenditures. Because the Board immediately is confronted with one such application establishing emergency rules after several months of deliberation is deemed to be more likely to serve the public interest than to consider such an application in the absence of any rules.

9) A Complete Description of the Subjects and Issues Involved:

The rulemaking establishes a complete set of financial and economic standards for the review of capital projects. Necessary standards for the review of mega-projects at both the design phase and for construction are incorporated in this Part.

- 3) "Estimated Total Project Cost" means the dollar amount of all expenditures or other transactions required to complete a project. Such amount includes all items that are to be capitalized and also includes the fair market value of any items which may be acquired through lease, donation, gift or other means.
- 4) "Financially Feasible" means that funds are available or will be obtained equal to or in excess of the estimated total project and related costs without jeopardizing the applicant's financial viability.

NOTICE OF EMERGENCY RULES

Applicants not in compliance with any of the viability ratios must document one of the following:

- A) evidence that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default; or
- B) evidence based upon projected financial statements and assumptions that for the first full fiscal year after project completion or the first full fiscal year when the project achieves or exceeds target utilization pursuant to Part 1100, whichever is later, the applicant will meet the standards in Appendix A.

The applicant must document that financial resources shall be available and be equal to or exceed the estimated total project cost.

c) Start-up Costs--Review Criterion

The applicant must document that financial resources shall be available and be equal to or exceed any start-up expenses and any initial operating deficit.

SUBPART D: ECONOMIC FEASIBILITY REVIEW CRITERIA

Section 1120.310
EMERGENCY Economic Feasibility Review Criteria

a) Reasonableness of Financing Arrangements--Review Criterion

The applicant must document that the project will be funded with cash and equivalents including investment securities, unrestricted funds, and funded depreciation as currently defined by the Medicare regulations (42 U.S.C. 1395) unless cash and equivalents must be retained for either of the following:

- 1) a portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order that the current ratio does not fall below 2.0 times; or
- 2) borrowing is less costly than the liquidation of existing investments.

b) Terms of Debt Financing--Review Criterion

The applicant must document that the selected form of debt financing the project will be at the lowest net cost available or if a more costly form of financing is selected, that form

is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs, and other factors.

c) Costs of Debt Financing--Review Criterion

The applicant must document that the costs of debt financing (i.e. debt service) shall not exceed the standards detailed in Appendix A of this Part.

d) Reasonableness of Project and Related Costs--Review Criterion

1) Construction and Modernization Costs

Construction and modernization costs per square foot for non-hospital based ambulatory surgical treatment centers and for facilities for the developmentally disabled, and for chronic renal dialysis treatment centers projects shall not exceed the standards detailed in Appendix A of this Part. For all other projects, construction and modernization costs per square foot shall not exceed the adjusted (for inflation, location, economics of scale and mix of service) third quartile cost figure as provided for in the Means Building Construction Cost Data publication.

2) Contingencies

Contingencies (stated as a percentage of construction costs for the stage of architectural development) shall not exceed the standards detailed in Appendix A of this Part.

3) Architectural Fees

Architectural fees shall not exceed the fee schedule standards detailed in Appendix A of this Part.

4) Major Medical and Movable Equipment

A) For each piece of major medical equipment, the applicant must document that the lowest net cost available has been selected or if not selected that the choice of higher cost equipment is justified due to such factors as but not limited to maintenance agreements, options to purchase, or greater diagnostic or therapeutic capabilities.

B) Total movable equipment costs shall not exceed the standards for equipment as detailed in Appendix A of this Part.

5) Other Project and Related Costs

NOTICE OF EMERGENCY RULES

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

The applicant must document that any preplanning, acquisition, site survey and preparation costs, debt service reserve funds, net interest expense and other estimated costs do not exceed industry norms based upon a comparison with similar projects that have been reviewed.

Reasonableness of Resultant Operating Cost--Review Criterion

The applicant must document that operating costs resulting from the project shall be reasonable in relation to the operating costs of comparable providers and similar services based upon cost analysis detailed in Appendix A of this Part.

Total Effect of the Project on Capital Costs--Review Criterion

Total projected annual capital costs (in current dollars per equivalent patient day for the first full fiscal year after project completion or the first full fiscal year when the project achieves or exceeds target utilization pursuant to Part 1100, which ever is later) shall be reasonable in comparison to comparable providers and similar services and not exceed the standards detailed in Appendix A of this Part.

g) Non-patient Related Services--Review Criterion

The applicant must document that projects involving non-patient related services (doctors' offices, parking garages, day care centers, etc.) will be self-supporting and not result in increased charges to patients or that increased charges to patients are justified based upon such factors as, but not limited to, a cost benefit or other analysis which demonstrates that the project will improve the applicant's financial viability.

Code 1110 with the exception of general long-term care categories of service and specialized long-term care services for the developmentally disabled, projected operating costs resulting from the project shall not exceed the median value of total direct costs on a per case or procedure basis.

Comparable providers are those with similar levels of care and services, similar bed capacities and ancillary support services, and similar payor mix.

Direct costs means the fully allocated costs of salaries, benefits, and supplies for the service.

The median value for the following categories of services is:

Open Heart Surgery	\$ 10,448	Lithotripsy	\$ 2,559
Acute Mental Illness	\$ 278	M-S/Peds	\$ 173
Rehabilitation	\$ 178	Neonatal ICU	\$ N/A
Intensive Care	\$ 512	MRI	\$ 80
Cardiac Cath.	\$ 873	Rad. Therapy	\$ 58
Substance Abuse	\$ 137	Kidney Trans.	\$ N/A
Obstetrics	\$ 207	Burn Care	\$ N/A

For all general specialized long-term care services for the developmentally disabled, operating costs shall not exceed the median values of costs calculated from the Medicaid cost reports filed with the Finance Section of the Illinois Department of Public Aid.

Median values shall be adjusted for inflation and comparability with other providers.

Review Criterion 1120.310(f), Total Effect of the Project on Capital Costs

Total Capital Expense/ Adjusted Patient Day	Hospitals	Gen. LTC	ICF/DD	ASTC's
	\$81.64	N/A	N/A	N/A

* Various economic feasibility standards are based upon 1991 data and will be adjusted for review purposes to the first full fiscal year after project completion or for the first full fiscal year when the project achieves or exceeds target utilization pursuant to 77 Ill. Adm. Code 1100, whichever is later.

NOTICE OF EMERGENCY AMENDMENTS

- 1) Heading of the Part: Health Facilities Planning Procedural Rules
- 2) Code Citation: 77 Ill. Adm. Code 1130
- 3) Section Number:
1130.750
Emergency Action:
Amendment
- 4) Statutory Authority:
Health Facilities Planning Act
Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1151 et seq.
- 5) Effective Date of Amendments: August 4, 1992
- 6) If this Emergency Amendment is to Expire Before the End of the 150-Day Period, Please Specify the Date on Which it is to Expire: This emergency amendment will not expire before the end of the 150 day period.
- 7) Date Filed in Agency's Principal Office: August 4, 1992
- 8) Reason for Emergency:

This emergency rulemaking has been adopted by the Health Facilities Planning Board and by the Department of Public Health in response to requests from several legislators and large teaching hospitals that certificate of need rules be developed to address the development of very large and costly construction projects (mega-projects) which are being developed by the health care industry. The State Board has been advised that mega-project proposals with capital expenditures in excess of \$2 billion may be submitted by several facilities in the state. The costs of the planning and design phases for these mega-projects alone will exceed the present certificate of need review thresholds and require a permit or certificate of need (CON). Current CON regulations are inadequate to evaluate mega construction projects (generally those with costs in excess of \$100 million) since they may involve several phases and extend over a ten year construction period. The lack of appropriate regulations prevents the State Board from evaluating the merits of an overall construction plan when the design phase is submitted from review.

The State Board and Department believe that emergency rulemaking is necessary in that the potential costs to the public associated with the future expenditures constitutes a significant and substantial adverse impact to the public's welfare if such projects are unneeded and developed without adequate certificate of need review. Given the fiscal implications of such costs to the public, third party payors and to government reimbursement programs which ultimately must pay for the construction, it is essential that a mechanism be in place to

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD
NOTICE OF EMERGENCY AMENDMENTS

evaluate the mega-projects' design and development costs as well as subsequent construction and modification projects. The emergency rules provide review criteria to evaluate mega-projects and to assess the cost impact to the public that might result from such projects. Such evaluations are mandated and consistent with the provisions of the Health Facilities Planning Act which has as its primary purpose the development of "a procedure designed to reverse the trends of increasing costs of health care resulting from unnecessary construction or modification of health care facilities."

Pursuant to the Act, the Planning Board is required to review applications for projects which involve capital expenditures in excess of capital expenditure minimum. Reviewing such applications without explicit rules could result in either Illinois foregoing appropriate modern medical facilities or incurring unnecessary capital expenditures. Because the Board immediately is confronted with one such application establishing emergency rules after several months of deliberation is deemed to be more likely to serve the public interest than to consider such an application in the absence of any rules.

9) A Complete Description of the Subjects and Issues Involved:

The rulemaking introduces a necessary control function in the design project consideration. Presently construction projects are allowed a 10 percent cost coverage on approved costs. As design projects contain no construction, no overrun will be allowed and the applicant will be held accountable for any costs that exceed the approved permit amount.

Section 1130.750 Alteration of a Project for Which a Permit Has Been Issued
EMERGENCY

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF EMERGENCY AMENDMENTS

A permit is valid only for the defined construction or modification, equipment, site amount and person(s) named in the application.

- a) If a permit holder proposes to alter a project for which a permit has been issued, a request for alteration must be submitted to the State Board. Such a request must contain a description of the proposed alteration and must address all applicable review criteria related to the alteration.
- b) The following proposed alterations require approval by the State Board:
 - 1) a change in the approved number of beds or stations; or
 - 2) a change in the categories of service approved; or
 - 3) a change in the square footage of the project if such change increases the exterior dimensions of the project; or
 - 4) an increase in the cost of the project which exceeds ten percent of the original approved permit amount; or
 - 5) an increase in the amount of funds to be borrowed; or
 - 6) an increase in the revised permit amount previously approved by alteration; or
 - 7) an increase in the cost of a master design project (See 77 Ill. Adm. Code 1110.60).

c) Alteration Procedures

- 1) The State Agency shall review the request for compliance with the review criteria and submit its findings to the State Board. If additional information is needed by the Agency to perform a review of the request, the permit holder shall be notified in writing.
- 2) A request for alteration reviewed by the State Board is subject to the provisions of 77 Ill. Adm. Code 1110.30, 1120, 1230 or 1240 which are applicable to the individual project. Any proposed alterations to a project which would, when taken as a separate component, require a permit under the Act, shall not be subject to review under this Section but shall require a new application.
- d) Upon approval of a request for alteration, the Agency shall revise the permit to reflect the alteration and shall adjust all inventories accordingly.
- e) Decisions on requests for alteration shall be transmitted, in writing, to the permit holder by the Executive Secretary.
- f) Seven affirmative votes are required for approval of an alteration. The approval or denial of a request for alteration constitutes the State Board's final

administrative decision. Approval of an alteration is based on the continued compliance of the project with 77 Ill. Adm. Code 1110, 1120, 1230 or 1240 as applicable.

ultimately must pay for the construction, it is essential that a mechanism be in place to evaluate the mega-projects' design and development costs as well as subsequent construction and modification projects. 9) A Complete Description of the Subjects and Issues Involved:

The rulemaking establishes specific standards for the review of the design phase of the mega-project. Cost factors mandate that such design projects be submitted for permit approval. Regulations adopted provide the State Board with a mechanism for the initial review of the design costs as well as the anticipated construction that would occur as a result of the design project.

DEPARTMENT OF PUBLIC HEALTH/HEALTH FACILITIES PLANNING BOARD

NOTICE OF EMERGENCY AMENDMENTS

SUBPART A: GENERAL APPLICABILITY AND PROJECT CLASSIFICATION

Section 1110.60 Master Design Projects
EMERGENCY

a) Definition

Master Design Project means a proposed project solely for the planning and/or design costs associated with an institutional master plan or with one or more future construction or modification projects. Project costs include: preplanning costs, site survey and soil investigation costs, architects fees, consultant fees and other fees related to planning or design. The master design project is for planning and design only and shall not contain any construction elements.

b) Review Coverage

Master design projects shall be classified as substantive. Such projects shall be reviewed to determine: the financial and economic feasibility of the master design project itself, the need for the proposed master plan or for the future construction or modification project(s), and the financial and economic feasibility of the proposed master plan or of the future construction or modification project(s). Findings concerning the need for beds and services and financial feasibility made during the review of the master design project are applicable only for the master design project. Approval by the State Board of a master design project does not obligate approval or positive findings on future construction or modification projects implementing the design. Future applications including those involving the replacement or addition of beds are subject to the review criteria and bed need in effect at the time of State Board review.

c) Applicable Review Standards

- 1) The estimated project costs of a master design project shall be subject to review only under the applicable review criteria of 77 Ill. Adm. Code 1120.
- 2) The master plan or the future construction or modification project(s) proposed pursuant to the master design project shall be subject to the applicable review criteria of 77 Ill. Adm. Code 1120 and the following review criteria found in this Part:

- 3) The applicant must document that all beds and services to be developed pursuant to the master design project must be needed and that access to each service will be improved as a result of the proposed master plan or the construction or modification project(s). The applicant must indicate an anticipated completion date(s) for the future construction or modification projects, and document that:
- A) the proposed number of beds and services to be developed pursuant to the master design project must be consistent with the bed or service need determination of 77 Ill. Adm. Code 1100; or
 - B) if bed or service need determinations do not support the proposed number of beds and services, that there are existing factors which support the need for such development at the time of project completion. Such factors include but are not limited to:
 - i) limitations on governmental funded or charity patients that are expected to continue;

- ii) restrictive admission policies of existing planning area health care facilities that are expected to continue;
 - iii) the planning area population is projected to exhibit indicators of medical care problems such as average family income below poverty levels or projected high infant mortality; and
- C) Utilization of the proposed beds and services will meet or exceed the utilization targets established in 77 Ill. Adm. Code 1100 within two years of completion of the future construction or modification project(s). Documentation shall include:
- i) historical service/bed utilization levels;
 - ii) projected trends in utilization including the rationale and projection assumptions used in such projections;
 - iii) anticipated market factors such as referral patterns or changes in populations characteristics (age, density, wellness) which would support utilization projections; and
 - iv) anticipated changes in the delivery of the service due to changes in technology, care delivery techniques or physician availability which would support the projected utilization levels.

Whereas, securing decent, safe, accessible, and affordable housing is a part of the American Dream and a goal of Illinois citizens; and
